

## Global Warming and Greening Research Paper

COSC 112: Dr. Sharad Sharma

### Part I – Research Paper

Search the Internet and review 2 reliable the web sources on computer greening from the Sustain Link: <http://bowiestate.libguides.com/sustainability>

Write a summary paper on the articles. Include

- Definition/explanation of the topic
- History – when did this become an issue (before or after computing technology)? How has the issue developed over time?
- Recent developments, in the past six months
- Analysis of the issue’s impact (future trends)
- Include atleast one image.
- Include atleast 5 references. They should be cited in the paper.

### Summary Paper Requirements

- Length: 3-4 pages, Single spacing
- Introductory Paragraph
- Main Body Paragraph
- Conclusion Paragraph
- Heading: Name, Course-Section, Date
- An appropriate title
- The goal of a summary paper is to give the reader the most important points of a reading in a shorter, briefer form.
- This paper should be in your own words about the content of the article.
- Must be typed and single-spaced, 12” font, Times New Roman
- Prepare an outline to help you structure your paper
