

Programming Assignment 10

DUE at the starting of the class on 11/19/2008 (Wednesday)

[Exercise P10.6] Write a function that returns a pointer to the maximum value of an array of floating-point data:

```
double* maximum (double a[], int a_size)
If a_size is 0, return NULL
```

[Exercise P10.10] Write a function

```
Void reverse (char s[ ] )
```

That reverses a character string. For example “Harry” becomes “yrrah”
